

FROST BUCKET

WBM Frost Buckets are designed to penetrate frozen or hard ground and dig rocky materials.

MACHINE SERIES	BUCKET CAPACITY (YD ³)	BUCKET WIDTH (IN.)	# OF TEETH	BUCKET WEIGHT (LBS)
150	0.375	18	3	1110
	0.5	24	5	1225
	0.625	30	5	1400
200	0.375	18	5	1220
	0.5	24	5	1420
	0.625	30	5	1750
250	0.875	30	5	1910
	1.0	32	5	1960
	1.125	36	7	2090
300	0.875	30	5	2200
	1.0	32	5 or 7	2650
	1.125	36	7	2800
400	1.5	36	7	3750
	1.75	42	7	3820

FEATURES & BENEFITS

- Extra heavy-duty construction
- Utilizes application specific teeth (sharp, twin sharp) and adapters
- Available in a full range of sizes and lug types
- Improves penetration into frozen or rocky material by focusing penetration forces progressively starting with the middle tooth
- Custom widths and capacities available

STANDARD EQUIPMENT

- 100,000 yield WBM coupler lugging or pin-on lugging
- 450 Brinell leading edge
- 450 Brinell base edge
- Heavy-duty penetration teeth and adapters
- Reinforced upper corners
