

BRUSH RAKES

CLIP-ON STYLE

PIN-ON STYLE

C-FRAME MOUNTED

WBM Crawler Dozer Brush Rakes are utilized in typical land clearing applications, piling brush and debris, leaving the soil or dirt behind to permit a clean burn.

WBM Brush Rakes are typically manufactured in the 'clip-on' style, that attach directly onto the factory dozer blade, but we also offer 'pin-on' style mounts which replace the factory blade and can either attach to the factory C-Frame, or directly onto existing dozer linkages.

FEATURES AND BENEFITS

- Various widths to match machine size and application
- Piles brush without collecting soil to promote clean brush pile burning
- Increases machine utilization over manual labour

STANDARD EQUIPMENT

- T-100 (A-514) steel tines
- Replaceable tips

OPTIONAL EQUIPMENT

- Spill guard
- Different tine spacing options available
- Heavier-duty frame construction
- Replaceable, heavy duty G.E.T.

'CLIP-ON' STYLE MODELS

MACHINE SERIES	WBM MODEL #	DESCRIPTION	WEIGHT (lbs)
CD50	CD50-COBR962-7S	96"; Clip-on, 7 Shanks	700
CD80	CD80-COBR96-7S	96"; Clip-on, 7 Shanks	750
CD90	CD90-COBR93-7S	93"; Clip-on, 7 Shanks	1,350
CD100	CD100-COBR98-6S	98"; Clip-on, 6 Shanks	1,674
CD125	CD125-COBR152-6S	152"; Clip-on, 6 Shanks	1,900
CD150	CD150-COBR152-6S	152"; Clip-on, 6 Shanks	2,050
CD200	CD200-COBR155-7S	155"; Clip-on, 7 Shanks	2,200

Moldboard Rake; weld-on tips.

ALTERNATIVE CONFIGURATIONS

Pin-on style mounting options available, attaching either to the c-frame, or directly onto existing dozer linkages
