

MANUAL ANGLE BLADE

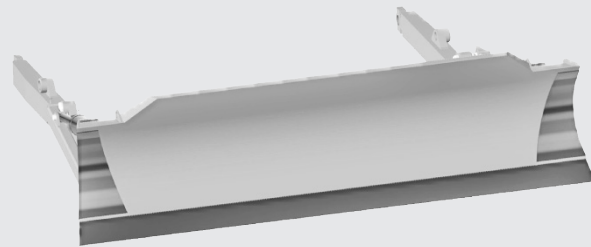

The Manual Angle Blade is offered in the standard (STD) and Low Ground Pressure (LGP) style. This versatile blade group includes as standard the WBM C-Frame with hydraulic tilt and trunnions. The STD and LGP Blade's compact design offer excellent visibility with increased machine balance and enhanced machine performance.

In addition, there is the optional Dual Tilt Cylinder Kit, which includes cylinders, hydraulic hoses, junction block and guarding allowing for the blade to become fully hydraulic. The operator is now able to remain in the comfort of the machines cab while optimizing time and productivity.

FEATURES AND BENEFITS

- Standard or low ground pressure gauge
- Compact design
- Increased visibility and safety
- Increased machine balance and performance

STANDARD EQUIPMENT

- C-frame with hydraulic tilt and trunnions

OPTIONS

- Dual tilt cylinder kit, allows operator to remain safely inside the cab
