

CATWALKS

WBM Catwalks are designed to provide better serviceability to an excavator and protect the upper house of the excavator.

FEATURES & BENEFITS

- Wrap-around Catwalks allow operator to service all critical areas of an excavator
- Optimal serviceability and maintenance capabilities
- Allows the operator to service a machine without having to use ladders, unstable lift mechanisms, or having to walk across the entire machine
- Provides dual-purpose benefits of adding serviceability and guarding

STANDARD EQUIPMENT

- Checker plate for extra traction

OPTIONS

- Railing to prevent falling
- Safety hook for additional safety
- Grating can be substituted for checker plate, allowing material to pass through
