

# FORESTRY CAB

WBM's Forestry Cabs are designed for optimal visibility, durability, ergonomics, and protection of the operator. The Forestry Cab is often used in road builder, feller-buncher and log loading applications.

## FEATURES & BENEFITS

- Optimal visibility due to protective Marguard windows and forward sloping cab design
- Sound suppression
- Meets WCB safety standards
- Wider than a standard cab
- Better visibility, durability, and protection versus a conventional cab with guarding

| SPECIFICATIONS                      | WBM SERIES II |
|-------------------------------------|---------------|
| Front Glass (in <sup>2</sup> )      | 2388.75       |
| Door Glass (in <sup>2</sup> )       | 1624.75       |
| LHS Glass (in <sup>2</sup> )        | 964.75        |
| Rear Glass (in <sup>2</sup> )       | 700           |
| RHS Glass (in <sup>2</sup> )        | 2566.5        |
| Total Glass Area (in <sup>2</sup> ) | 8244.25       |
