LIMITATIONS

Weldco Hydra-Lift warrants each new manufactured product to be free from defects in material and workmanship, with its obligation and liability being expressly limited to repairing or replacing free of charge, at Weldco Hydra-Lift's option, the product proving defective under normal use and service at its factory. If the date the product entered service cannot be established to Weldco Hydra-Lift's satisfaction, the warranty period will be based on the original invoice date of the product.

WARRANTY PROCEDURES

The warranty policies and procedures protect dealers and their customers by ensuring that defects or repairs are completed in a responsible and timely manner.

Weldco Hydra-Lift Warranty Department requires notification prior to the repair of a defective item during the warranty period. This notification provides an expedited method in which the issue can be resolved for the customer. Utilizing this notification process, Weldco Hydra-Lift can offer immediate guidance on the required repairs and either authorize a field repair or have the product returned to the factory for rework or replacement. In addition, immediate notification of defects is important, as it allows Weldco Hydra-Lift to improve design or manufacturing processes to our product that helps ensure Dealers and their Customers receive quality attachments.

Upon notification of a defect, Weldco Hydra-Lift will issue a tracking number. However, if a failure occurs outside of regular business hours, a tracking number may be obtained the next business day.

Once a tracking number is provided, the following information will be required for completion and payment of all approved warranty claims:

1. Nature of the failure or damage
2. Serial number of the product
3. Number of hours used
4. Date the product went into service
5. Estimate of the cost to perform suitable repairs
6. Pictures of the damage
7. Damaged parts/goods referencing tracking number to be returned upon request
8. Damaged parts/goods returned via pre-paid freight unless otherwise specified by Weldco Hydra-Lift
9. Copies of invoices for all outside charges must be included with your claim.

Weldco Hydra-Lift will provide reimbursement on approved warranty claims submitted in a timely manner (within 60 days) complete with all of the above information. Failure to supply the required information will result in a delayed and/or denied claim. Denied claims will be returned to the associated Dealer's corporate warranty department.
