

# ONE WAY PLOW

WBM Motor Grader One Way Plows are used exclusively for clearing snow. The funnel-shaped, radial moldboard profile easily and effectively clears and casts snow. Operating the grader at moderate to high speed forces the snow into the tight curvature of the moldboard, which funnels it up and out of the large radius open end.

## FEATURES & BENEFITS

- Proven moldboard profile provides excellent snow casting and clearing characteristics
- 8'-8" cutting width covers most small to medium size grader width over tires, 10' cutting width covers most medium to large size graders width over tires
- High strength tubular frame for long lasting durability
- Adjustable skid shoes increase cutting edge life and plow stability
- Increased durability to withstand impact in snow clearing operations

## STANDARD SPECIFICATIONS

- Bolt-on reversible cutting edges to promote a longer service life
- KAT or Integral Lift

## OPTIONS

- High abrasion cutting edges (ie: carbide) for extreme and high wear conditions
