

# PUSH BLOCK / COUNTER WEIGHT

WBM Motor Grader Push Block/Counter Weights have a dual purpose on Motor Graders. As a push block, the attachment acts to protect the front of the grader when pushing other machines. This attachment will also increase traction of the front wheels, if the grader is equipped with front wheel drive, and increase steering capability when grading.

## FEATURES AND BENEFITS

- Bolt-on weldment
- Additional tow hooks
- Bolts directly to grader front end mount plate
- Enables grader to be utilized for towing purposes when required
