

UNDERGROUND EJECTOR BODIES

WBM's Underground Ejector Bodies make articulated trucks ideally suited for operations in areas with limited overhead clearance. Being able to discharge the full load without having to raise the body, Ejector Bodies offer greater stability particularly on soft surfaces.

FEATURES & BENEFITS

- 100,000 yield strength steel body construction
- Abrasion resistant wear plates
- Durable ejector assembly
- Dual eject cylinders
- Hydraulically operated tailgate
- Uses OEM mounting points
