

UNI-BEAM PIPE GRAPPLE

FEATURES

- Low profile Uni-Beam frame design drastically improves operator visibility over industry standard twin beam fork frame
- 96" standard carriage width
- In-frame hose routing
- Light weight
- Fixed tine location
- Fork tine kick-outs
- 4" diameter clamp and 3" diameter stabilizer hydraulic cylinders
- 12" maximum pipe capacity

OPTIONS

- Adjustable tines
- Fork positioner locks
- Custom widths
- Dual taper tines
- Variable tine sizes and lengths
- Holding valve to limit clamping force but not decrease the stabilizing force (increases rated load)
- Clamp and stabilizer to handle smaller or larger pipe diameters
