LOADER BACKHOE SIDE BOOMS

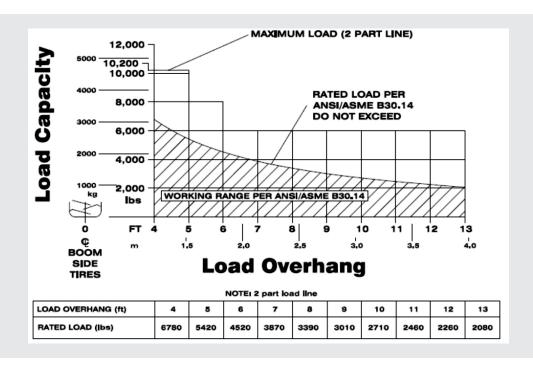

WBM Side Booms can be added to any brand of Loader Backhoe (with or without backhoe attached) and adds operational versatility for machines used in the utilities and infrastructure applications.

FEATURES & BENEFITS

- Telescopic side boom extends from 7-12 ft and can be hydraulically positioned to give a working range of 4-13ft offset from the machine
- Hydraulic winch and two-part line can achieve up to 10,000lb max lift capacity (actual capacity reduced to meet ANSI / ASME rated load guidelines)

Sample load chart shown right – subject to change with machine / configuration.
